The amendment received May 18, 2004 has been made of record. Claims 1-4, 7-8, 17, 24-27, 30-33, 40-41, 44, 47 and 51-52 are pending.

The rejection under 35 USC 102 contained in the previous office action is withdrawn in view of applicants' amendments.

Claims 1-4, 7-8, 17, 24-27, 30-33, 40-41, 44, 47 and 51-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Roorda et al.

Roorda et al disclose compositions and processes for agglomerating iron ore. The compositions taught as suitable comprise carboxymethyl cellulose salts in combination with alkali salts of citric acid (claim 8) or sodium carbonate (claim 4). The reference further discloses that these compositions are suitable for "all sorts of iron containing ores" including hematite and pyrite residues. This statement is seen as teaching that the compositions would be useful for agglomerating applicants claimed "difficult to bind hematite".

Therefore, the reference anticipates the rejected claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1714

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
